

DAVID EVANS

Operations | Product Systems | Ecommerce | CRM | Process Improvement

PROFESSIONAL SUMMARY

Operations and product-systems builder with more than 20 years of experience across ecommerce, customer operations, inventory, distribution, CRM, graphic and web design, and business-process improvement. Managed and maintained an Amazon catalog exceeding 100,000 SKUs and now designs connected PHP/MySQL products that turn fragmented work into repeatable operating systems.

CORE STRENGTHS

- Product and business operations
- Ecommerce and customer lifecycle systems
- PHP/MySQL product architecture
- Responsive interface and design systems
- Inventory, catalog, and data quality
- CRM workflows and process improvement
- Requirements, QA, and release coordination
- AI-assisted development with human review

PROFESSIONAL EXPERIENCE

Founder and Systems / Product Operations Lead

VP3 Media Corp. / Microgifter | May 2024 - Present

- Own product strategy, workflow architecture, requirements, interface direction, QA, and release priorities for connected commerce and CRM products.
- Design PHP/MySQL systems for gifting, merchant CRM, campaigns, claims, rewards, customer lifecycle data, and agent-assisted commerce.
- Coordinate scoped development, repository workflows, test gates, deployment handoffs, and cross-feature integration.

eCommerce Listing Specialist

Kodi Distributing | Sep 2023 - Apr 2024

- Managed product information and listing quality across storefronts including an Amazon catalog exceeding 100,000 SKUs.
- Improved consistency across titles, attributes, images, pricing, categories, and inventory-facing product data.

Client Services Manager

Timeshare Attorneys of America | Jun 2010 - Sep 2016

- Managed new-client processing, discovery, CRM development and administration, customer service, records, billing coordination, and office workflows.
- Connected intake, case information, follow-up, and operational responsibilities into repeatable client-service processes.

Marketing Coordinator

Platypusco | Mar 2010 - Oct 2010

- Supported marketing coordination, visual communication, promotions, and business-development activities.

Sales and Distribution Operations

Treecycle | Mar 2003 - Feb 2004

- Supported sales, order coordination, distribution activity, customer communication, and day-to-day operating workflows.

SELECTED PRODUCT AND SYSTEM WORK

Microgifter - Social Gifting and Merchant CRM

Founder-led platform connecting digital gifting, merchant CRM, campaigns, rewards, messaging, claims, redemption, recurring programs, and automated commerce.

Homestead - Household Food Operating System

PHP/MySQL household platform connecting family access, pantry, recipes, meal planning, gardens, harvests, preservation, tasks, forecasting, costs, nutrition planning, alerts, and a shared calendar.

Gruber Procurement Intelligence Platform

Self-directed portfolio demonstration connecting supplier and SKU masters, purchasing, inventory snapshots, savings, scorecards, approvals, audit history, reporting, and human-supervised AI.

Roger Huston / Ganjafesto Records

Music and visual-art portfolio combining original Space Reggae, artist branding, direct-to-fan merchandise, custom vinyl, publishing, and artist-agent concepts.

VP3.ME and Training Lab

Agent-domain, knowledge, supervised-action, proof-based training, review, reward, and safe-claim product concepts.
